International Journal of
Satellite Communications

CONTENTS

Volume 21 Numbers 1–6

Volume 21 Number 1 January–February 2003

Special Issue on Interference Suppression Techniques for Satellite Systems
Guest Editor: Peter Stavroulakis

Interference suppression techniques: a twenty-year survey: P. Stavroulakis 1

Interference rejection in non-Gaussian noise for satellite communications using nonlinear beamforming: C. Q. Xu, C. L. Law and S. Yoshida 13

A low complexity partially adaptive CDMA receiver for downlink mobile satellite communications: G.-J. Lin and T.-S. Lee 23

Design, implementation and verification through a real-time test-bed of a multi-rate CDMA adaptive interference mitigation receiver for satellite communication: L. Fanucci, R. De Gaudenzi, F. Giannetti, M. Luise and M. Rovini 39

Successive interference cancellation in a low-earth orbit satellite system: J. G. Andrews and T. H. Y. Meng 65

Adaptive parallel interference cancellation receiver in CDMA satellite systems: L. Zhang and J. Zhu 79

Joint multi-user detection and intersymbol interference cancellation for WCDMA satellite UMTS: M. M. da Silva and A. M. C. Correia 93

Optimum filtration of NB interference in DS-CDMA satellite systems: J. J. Pawelec and R. Piotrowski 119

IJSCEF 21(1–6) 1–640 (2003)
ISSN 0737–2884

MMSE-based groupwise successive interference cancellation scheme for multirate CDMA systems: J. Ma and H. Ge 127

Interference avoidance and multiuser MIMO systems: D. C. Popescu and C. Rose 143

Volume 21 Number 2 March–April 2003

Evaluation of the guaranteed hangover algorithm in satellite constellations requiring mutual visibility: P. Boedhihartono and G. Maral 163

Approximate urban area call drop-out probability estimation in mobile multi-satellite systems: F. Perez-Fontan, M. A. Vazquez-Castro, C. Enjamio, P. Mariño and J. Pita 183

Stability analysis of an adaptive packet access scheme for mobile communication systems with high propagation delays: G. Giambene and E. Zoli 199

Volume 21 Number 3 May–June 2003

TCRA: a time-based channel reservation scheme for handover requests in LEO satellite systems: L. Boukhatem, A. L. Beylot, D. Gaïti and G. Pujolle 227

On ACK filtering on a slow reverse channel: C. Barakat and E. Altman 241

Capacity provisioning and failure recovery for Low Earth Orbit satellite constellation: J. Sun and E. Modiano 259

BPSK and QPSK non-linear satellite communication system performance in the presence of cochannel interference: M. C. Stefanovic and G. T. Djordjevic 285

Volume 21 Numbers 4 & 5 July–October 2003

Special Issue on Satellite IP Quality of Service
Guest Editors: Sastri Kota and Mario Marchese

Guest Editorial: S. Kota and M. Marchese 299

Quality of service for satellite IP networks: a survey: S. Kota and M. Marchese 303

A gateway architecture for IP satellite networks with dynamic resource management and DiffServ QoS provision: L. S. Ronga, T. Pecorella, E. Del Re and R. Fantacci 351

QoS-oriented traffic management in multimedia satellite systems: N. Courville 367

An IP-based satellite communication system architecture for interactive multimedia services: N. Iuoras, T. Le-Ngoc, M. Ashour and T. Elshabrawy 401

Dynamics of TCP over BoD satellite networks: M. Sooriyabandara and G. Fairhurst 427

A predictive demand assignment multiple access protocol for Internet access over broadband satellite networks: Z. Jiang and V. C. M. Leung 451

Static and dynamic resource allocation in a multiservice satellite network with fading: N. Celandroni, F. Davoli and E. Ferro 469

Networking issues in IP multicast over satellite: Z. Sun, M. P. Howarth, H. Cruickshank, S. Iyengar and L. Claverotte 489

CALL FOR PAPERS 509

Volume 21 Number 6 November–December 2003

Performance evaluation of a reservation TDMA protocol for voice/data transmissions in a LEO satellite communication system: R. Fantacci, S. Nannicini and T. Pecorella 511

Freezing height distributions in the tropics: M. Thurai, E. Deguchi, T. Iguchi and K. Okamoto 533

Modified methodology for computing interference in LEO satellite environments: R.C. Santiago, V. Y. Kontorovitch and M. L. Barrón 547

Performance limitation of laser satellite communication due to vibrations and atmospheric turbulence: down-link scenario: S. Arnon, N. S. Kopeika, D. Kedar, A. Zilberman, D. Arbel, A. Livne, M. Guelman, M. Orenstain, H. Michálik and A. Ginati 561

Impact of avoidance angle mitigation techniques on the interference produced by non-GSO systems in a multiple non-GSO interference environment: J. M. P. Fortes and R. Sampaio-Neto 575

On the rain attenuation dynamics: spatial–temporal analysis of rainfall rate and fade duration statistics: A. D. Panagopoulos and J. D. Kanellopoulos 595

On the capacity optimization in multicarrier channel operation: A. Pujante-Cuadrupani and L. de Haro-Aret 613
